

I believe the decision by both Sinclair and Pappas Corporations have highlighted that the media in this country is far from having a non-partisan slant. I have heard for years and in fact still hear today about the liberal media, yet all the evidence I see is in kind contributions to the Republican Agenda in this country. Indeed the head of the FCC has a Republican Agenda. When is the going to do anything about the corporate greed that the FCC appears to embrace. I was under the apparently delusional opiion that the FCC was in place to serve the people of this country. PEOPLE by the way means every last citizen, not just the one you agree with. Therefore I am sugesting that Farenhiet 911 be shown on FOX NOV 1 9 PM Eastern and that Pappas and Sinclair both be forced to give free primetime slots of one hour each to the DNC and Move On. Sounds ridiculous doesn't it. Well that is exactly what the right has accomplished, with the FCC and media sitting on the side going oh well. Shame.
